

Dear Marc and Jane,

February 3, 2021

Thank you for joining our RiverHaven Civic League (RHCL) meeting on December 16, 2020 to answer questions about the Great Neck Baseball League's (GNBL) lighting proposal. We had 17 residents participate in this meeting, 15 virtually and 2 in person.

It was evident from this meeting and discussions with neighbors that our RiverHaven community has varying levels of support for this GNBL proposal. To this end, we as a civic league organization can neither offer our formal support nor opposition for the proposal. Instead we have asked our residents to submit a letter to demonstrate their individual stance. We hope these various perspectives will help inform your next steps for the project. Enclosed please find 31 letters from our community, 19 in favor and 12 opposed. Residents have included their address in the event you would like to reach out to them directly.

We ask that you please respond with a letter to inform us on your next course of action for the project. The civic league truly appreciates the opportunity to engage with you on issues that affect our community.

Sincerely,

Traci Wagner
RHCL President
